

NOVEMBER 2023

2023 COLLECTION JUST LANDED IN BERLIN

Housed in a period building and reminiscent of an authentic Berlin old house, the **Minotti Berlin by Herrendorf** flagship store opens its doors to the **2023 Collection** in a renewed atmosphere featuring soft lighting, warm hues and fine materials.

The interior design by **Minotti Studio** creates a pleasant home feeling and embodies the perfect fusion of Minotti style and classic Berlin sophistication.

The two-level showroom is the ideal stage for the brand's latest designs. On the ground floor, a living area looking out onto Lietzenburger Straße hosts the **Dylan Low** modular seating system, together with the **Brady** coffee table, both designed by Rodolfo Dordoni, along with the comfort of the **Torii Bold** armchairs by Nendo. In the adjacent living area, the sinuous shapes of the **Raphael** family of seats by Gamfratesi stand out, creating a more intimate conversation corner.

The colour palette embraces the intense shades of brown and the soft hues of white, dove grey and beige, with accents of gold and bronze, thus giving life to elegant settings where classicism and contemporaneity blend harmoniously.
