

AMII

NENDO DESIGN

A seating system designed for outdoor spaces inspired by and named after an enveloping net that embraces and shelters. Amii caters for a wide variety of tastes and ergonomic needs: the low-backrest configuration is particularly suitable for convivial occasions, while the high-backrest version creates a more intimate and cosy space. The mix of the two types lends the atmosphere versatility and aesthetic movement.

The arrangement depicted is just one example of the many different compositions possible with our seating systems. We suggest that you contact the nearest Minotti dealer to explore the options most suited to your needs and select the upholstery of your choice from the exclusive Minotti collection.
